# FROM THE DIRECTOR BUREAU OF JUSTICE STATISTICS

On behalf of the Bureau of Justice Statistics (BJS), U.S. Department of Justice, the Bureau of the Census is conducting a sample survey of law enforcement agencies in the United States. The survey will obtain current information on the workload and resources of the Nation's law enforcement agencies. BJS first conducted this survey in 1987 as part of its Law Enforcement Management and Administrative Statistics (LEMAS) program. The survey was repeated in 1990 and 1993.

As in past years, your agency and other agencies in the scientifically selected sample will represent the characteristics and work of all law enforcement agencies in the United States. Federal, State, and local officials will use the data to assess the needs of law enforcement agencies and to keep informed of their status. BJS will publish the data in a series of reports.

So that we can complete data collection and publish the survey results as soon as possible, please complete this questionnaire within 3 weeks and return it in the enclosed envelope. If answers to questions are not readily available, provide reasonable estimates marked with an asterisk (\*). You may wish to retain a photocopy of your completed reply. If you need assistance with the questionnaire, call Carolyn Gates at the Census Bureau on 1-800-352-7229.

Public reporting burden for this collection of information is estimated to average 1 hour per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspects of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 633 Indiana Avenue, NW, Washington, DC 20531.

The Omnibus Crime Control and Safe Streets Act of 1968, as amended (42 USC 3732), authorizes this information collection. Although this survey is voluntary, we urgently need and appreciate your cooperation to make the results comprehensive, accurate, and timely.

Sincerely

Jan M. Chaiken, Ph.D. Director

u M. Charken
