**1992 DIRECTORY OF TECHNOLOGY USE IN
CRIMINAL JUSTICE AND
RELATED AGENCIES**

JUNE 21, 1992

This directory was prepared with funds from a \$150,000 grant from the Bureau of Justice Statistics, U.S. Department of Justice for the establishment of the West Virginia Statistical Analysis Center.

ACKNOWLEDGEMENTS

I would like to thank the hundreds of agencies who gave the West Virginia Statistical Analysis Center information about their agencies and the technology they use.

This directory was prepared by Samuel L. Dameron, Ph.D., Senior Research Associate of the West Virginia Statistical Analysis Center, Marshall University. The Director of the West Virginia Statistical Analysis Center was Dr. Christine Barry. Project staff included Joyce Adkins, Christine Barry, Margaret Phipps Brown, Jim Butcher, Traci Dean, Donna Hammond, Mike McCarthy, Marissa Perez and Reta Roberts.

METHODOLOGY

The information in the data base and directory was developed through a survey of criminal justice agencies conducted from January through April 1992. The survey began with an initial mailing in January which was followed by another mailing in February. A third mailing was made in March to expand the data base. In March and April, phone surveys were conducted to elicit information from who had not returned questionnaires.

The contact list for agencies was developed from the National Police Chiefs and Sheriffs Information Bureau. (1990). 1990 National directory of law enforcement administrators, correctional institutions and related agencies. Stevens Point, WI: National Police Chiefs and Sheriffs Information Bureau, West Virginia Child Care Association, Inc. (1989). 1989 Directory of residential care for children and youth in West Virginia. Charleston, WV: West Virginia Child Care Association Inc., and agency lists provided by professional groups and state agencies. Agencies contacted included: circuit judges and clerks, magistrates clerks, prosecutors, correctional agencies, jails, municipal police departments, sheriffs departments, juvenile facilities, college and university criminal justice, police and security departments, the offices of the Department of Health and Human Services, professional criminal justice organizations and other state agencies.

Six hundred eighty four criminal justice and related agencies were contacted by mail or phone. Six hundred eighty three criminal justice and related agencies responded to the survey either by mail or phone. Only one municipal police department refused to participate in the study and did not provide information to the Statistical Analysis Center. Of the agencies contacted, 377 reported the use of technology.

QUESTIONNAIRE

WEST VIRGINIA STATISTICAL ANALYSIS CENTER
CRIMINAL JUSTICE TECHNOLOGY SURVEY

Agency Name: _____
Address: _____
_____ ZIP _____

Contact Person: _____
Phone: _____

Thank you for taking the time to complete this questionnaire. Your time will help assure the success of this survey. If you need additional space to answer any of the questions, please attach extra sheets of paper.

MICROCOMPUTERS

Please tell us which computers are used by your agency at the office where you work. We want to learn about all computers currently in use, but only once. Please do not report computers which are not located at your office or in your building. For example, if you are reporting for a sheriff's department, please report any computers in use in the law enforcement, tax, or executive offices. Do not report computers in use in the jail, as surveys are being set to jail administrators. It will be helpful if you can coordinate your reporting with other individuals who receive questionnaires so each computer is only reported once. If you are uncertain about whether or not to report computers, please contact a SAC staff member. If your agency has no computers, please write "none" in the first blank and proceed to the next section.

MAINFRAME COMPUTERS

Please tell us which mainframe computers are used by your agency at the office where you work. Again, we want to receive information about every mainframe computer utilized by criminal justice agencies in West Virginia; however, we want each mainframe computer reported only once. Please coordinate reporting with other criminal justice agencies who may use the same mainframe computer your agency does.
