*Acknowledgments.* This report was written by Mimi Cantwell, Crime Statistics Analysis Staff, Bureau of the Census, under the supervision of John F. Wallerstedt and general-direction of Adolfo L. Paez. The main responsibility for production support was shared by Millie Baldea, Gladys Davis, who also drafted the charts, and Barbara Sibel.

Collection and processing of data were conducted in the Bureau of the Census under the general supervision of Evan H. Davey, Demographic Surveys Division; Chester E. Bowie, Chief of the National Prisoner Statistics Branch, directed those activities, assisted by Gerald W. Gates, Evie S. Wolfson, Arlene J. Rasmussen, Herbert C. Unger, Joel S. Gordon, and Marie L. Porrazzo.

Carol B. Kalish of the Bureau of Justice Statistics provided overall program direction.

The report was made possible only by the generous and unstinting assistance of State correctional officials and each State Office of the Attorney General. Their patience and cooperation in providing the data contained herein are gratefully acknowledged.

## Preface

This report on the number and movement of prisoners in the United States during 1979 features information on the geographical distribution of prisoners, on changes in the relative frequency of different types of admissions and releases, and on the composition of the inmate population by race, sex, and Hispanic origin. Incarceration rates by race and Hispanic origin are presented for the first time in this component of the National Prisoner Statistics (NPS) program. As in past reports, trends in growth and reasons for change in the characteristics of the prison population are examined.

Continuing a change begun in the 1978 report, this study focuses on the total prisoner population in Federal and State correctional systems. Prior to that year, reports in the series emphasized only prisoners sentenced to terms of more than 1 year (the "sentenced" population). While admission and release data continue to cover only this group, analysis of the yearend population now encompasses both "sentenced" prisoners and those with sentences of 1 year or less or no sentence.

As with another change initiated in 1978, this report deals with prisoners subject to confinement under the jurisdiction of a given correctional system, irrespective of whether they are actually in its physical custody. In contrast, reports in this series prior to 1978 focused on persons held in the physical custody of each system. The impact of this distinction is assessed in Appendix III of *Prisoners in State and Federal Institutions on December 31, 1978*.

In addition to the major set of data tables on the jurisdiction population, Appendix I also contains a special table showing the number of persons under custody of State and Federal correctional authorities at yearend 1979. Appendix II contains two special tables showing rates of incarceration by sex/race and by Hispanic origin. Appendix III consists of a statement on the method of data collection and on the completeness of response to the various sections of the questionnaire, a facsimile of which is also included. Explanatory notes relating to each jurisdiction's degree of conformity with the criteria and definitions of the NPS program are found in Appendix IV.

*Prisoners in State and Federal Institutions* is an annual publication, one of a series of reports prepared under the NPS program. Based on voluntary reporting, the program was instituted to collect and interpret data on inmates in State and Federal correctional institutions. Initiated by the Bureau of the Census in 1926, it was transferred to the Bureau of Prisons in 1950, to the Law Enforcement Assistance Administration (LEAA) in 1971, and to the Bureau of Justice Statistics (BJS) late in 1979. Since 1972, the Bureau of the Census has had the responsibility for gathering and processing the statistical data required for the program.

## Figures

1. Number of sentenced State and Federal prisoners at yearend, 1925-79, 1
2. Recent changes in prison population for States with more than 10,000 inmates as of yearend 1979, 1
3. Recent changes in prison population for States with 1979 increases of more than 10 percent, 2
4. Number of sentenced State and Federal prisoners per 100,000 U.S. population, 1940-79, 2
5. Number of sentenced State and Federal prisoners per 100,000 U.S. population, by State, 1979, 3
6. Prisoners reported by State correctional authorities as being held in local jails because of overcrowding, 1976-79, 3
7. Prisoners with sentences of 1 year or less or no sentence as a percent of all prisoners, by jurisdiction, 1976-79, 4
8. Percent increase in total number of State and Federal prisoners, by sex, 1975-79, 4
9. Number of sentenced women in State and Federal prisons at yearend, 1970-79, 4
10. Trends among sentenced women in State and Federal institutions, 1970-79, 4
11. Blacks as a percent of male and female prisoners, by jurisdiction and region, 1979, 5
12. Change in admissions and releases from Federal and State institutions, 1978-79, 5
13. Releases from State and Federal institutions, by type, 1979, 6
14. Releases from State institutions, by detailed type, 1978-79, 6
15. Death rate in U.S. prisons, by jurisdiction and region, 1978-79, 7

## Contents

Preface, iii

### Introduction, 1

#### The prison population at yearend, 1

- Texas surpasses Federal sector, 1
- High increase in some States, 2
- Legislation affects population change, 2
- Growth moderation probably temporary, 2
- Rate per 100,000 sets new high, 2
- Decrease in jail-housed prisoners, 3
- Short/no sentences rise in Federal prisons, 3
- Lower growth for women, 4
- Black overrepresentation highest in Northeast, 4
- Most jurisdictions report Hispanic data, 5
- Incarceration rate highest for black males, 5

#### Admissions and releases, 5

- Admission/release ratio down again, 5
- Reporting practices vary for escapes and AWOLs, 6
- Rise in returned violators, 6
- Federal/State release practices differ, 6
- Release type varies by State, 7
- Parole use down, 7
- Shift toward mandatory release, 7
- Little change in unconditional release, 7
- Prisoner deaths number 681, 7

### Appendixes

- I. Data tables, 9
- II. Incarceration rates, 33
- III. Data collection method and questionnaire, 37
- IV. Explanatory notes, 44

## Introduction

The number of prisoners in the United States reached a new high of over 314,000 on December 31, 1979, despite the second consecutive annual decline in the number of Federal prisoners. Although growth had leveled off from the high percentage increases posted in the mid-1970's, the sheer volume of new incarcerations resulted in large numbers of persons being added to the rolls of U.S. prisons in the face of comparatively small percentage increases. Even with the moderate growth registered during 1979, State institutions grew by more than 10,000 prisoners.

Seven consecutive years of increase in the prison population have marked the current period as the third era of sustained growth since national figures became available in 1925 (Figure 1). The first such period coincided with the depression years and ended abruptly with the outbreak of World War II. Following the end of the war until early in the 1960's, the prison population rose once again, until it leveled off somewhat late in that decade. The most recent period of steady growth, by far the most dramatic in the history of U.S. prisons, began in 1973.

All of the 1979 increase in State prisoners was among those sentenced to terms of more than 1 year, the largest and most significant group comprising the U.S. prison population. This growth was attended by a decrease in prisoners with sentences of 1 year or less or no sentence, reflecting the need by prison authorities to make room for the more serious offenders in the face of severe overcrowding. As a result, the prison

population grew not only in numbers but in the proportion of long-term prisoners as well.

Beset by overcrowding and deterioration, U.S. prisons came under increasing court scrutiny during the 1970's, at a time when many jurisdictions experienced budget problems that adversely affected personnel and programs. Prison systems have been the object of growing numbers of lawsuits and class actions directed at relieving allegedly poor conditions. By yearend 1979, 31 States and the District of Columbia had litigation pending or were under court order to remedy such conditions. Remedial action, however, was often postponed as prison authorities appealed for time to expand or renovate facilities or were involved in disputes over alternative methods of handling persons convicted of crime. In the meantime, many jurisdictions initiated efforts to obtain formal accreditation for their confinement facilities by demonstrating compliance with standards for physical plant conditions, medical care, safety, sanitation, rules, discipline, and many other areas of prison administration.

Many jurisdictions during the same time period passed new sentencing and parole laws. Some of these laws mandated incarceration in lieu of probation and required fixed sentences that exceeded the average time actually served under the old laws. Although the transition to new laws was at too early a stage to discern effects at the national level, their impact in coming years may well lead to even greater growth in the number of persons imprisoned in the United States.

## The prison population at yearend

During 1979, the U.S. prison population increased by 2.2 percent, continuing the moderate level of growth registered the previous year. Federal institutions declined in population by 12 percent, almost two-thirds greater than the decline reported a year earlier. State institutions added over 10,000 persons to their rolls, an increase of 4 percent, about the same percentage as in 1978. In all, 40 States and the District of Columbia increased their prison population and 10 States showed decreases.

### Texas surpasses Federal sector

Almost two-fifths of the total rise in the State prison population was attributable to the three States with the largest numbers of prisoners: California, New York, and Texas (Figure 2), despite the fact that for each of these three States, growth was down slightly from 1978. Both Texas and California sustained relatively high increases in 1979, 8 and 6 percent, respectively. Texas' inmate population, in fact, surpassed that of the entire Federal prison system, marking the first time that the prison population of any State exceeded that of the Federal sector. Florida, the State with the fourth largest prison population, had a loss during 1979, in contrast with 1978, when it reported a 9-percent increase. In addition to these four States, five others reported inmate totals in excess of 10,000: Georgia, Illinois, Michigan, North Carolina, and Ohio.

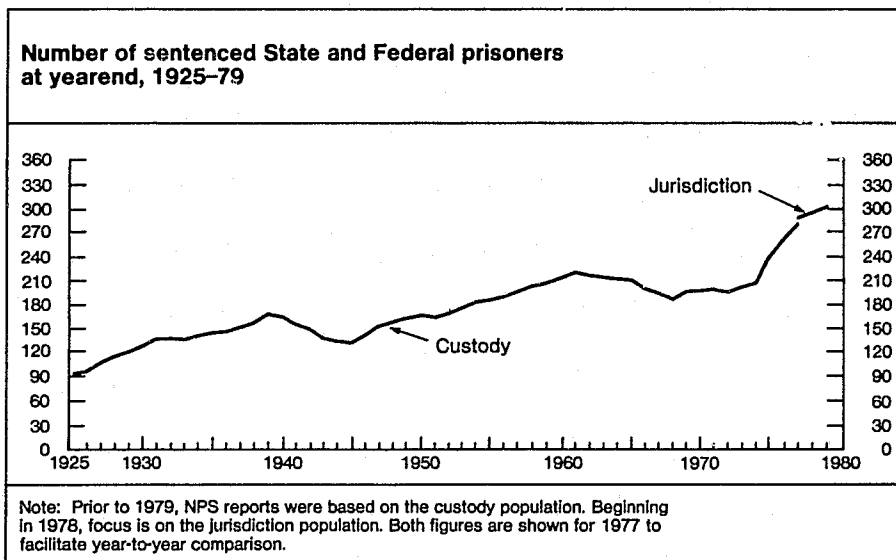

Figure 1

**Recent changes in prison population for States with more than 10,000 inmates as of yearend 1979**

State	Number of prisoners 12/31/79	Percent change	
		1977-78	1978-79
Texas	26,522	9.5	7.9
California	22,632	8.7	6.1
New York	21,158	5.6	3.4
Florida	20,133	9.1	-6.1
Michigan	15,002	8.5	0.4
North Carolina	14,253	-7.0	7.8
Ohio	13,360	4.0	1.9
Georgia	12,098	-5.8	6.9
Illinois	11,361	-4.2	0.9

Figure 2

Figure 7

available, while it declined in State institutions. As of yearend 1979, such prisoners comprised 14 percent of all Federal inmates, but only 3 percent of those in State institutions. In the Federal system, their number increased by 11 percent, compared with a 3-percent decline in State institutions.

Figure 8

About half of the unsentenced State inmates were held within jurisdictions in which a single confinement system performed the functions of both prisons and jails, including the detention of accused persons awaiting trial.<sup>3</sup> Most of the remainder were in California, where State correctional facilities housed sizeable numbers of narcotics users under civil commitment.

**Lower growth for women**

For the first time since 1975, the percent increase in the total number of women in State and Federal prisons was lower than that recorded for men (Figure 8). The overall growth among women prisoners—including those sentenced to more than a year, those with a term of a year or less, and those with no sentence at all—was 1.4 percent in 1979, down from a high of 19.5 percent in 1975, the first year that comparable data became available. The number of women serving sentences of more than a year (for whom longer term trend data are available) more than doubled during the 1970's (Figure 9). Nonetheless, the proportion of women in the prison population has leveled off at about 4 percent since rising from slightly less than 3 percent a decade earlier (Figure 10).

The low growth among women prisoners in 1979 was attributable largely to a 15-percent drop for those with sentences of 1 year or less or no sentence, a decline that was spread over several

<sup>3</sup>Jurisdictions with integrated jail/prison systems are Alaska, Connecticut, Delaware, the District of Columbia, Hawaii, Rhode Island, and Vermont.

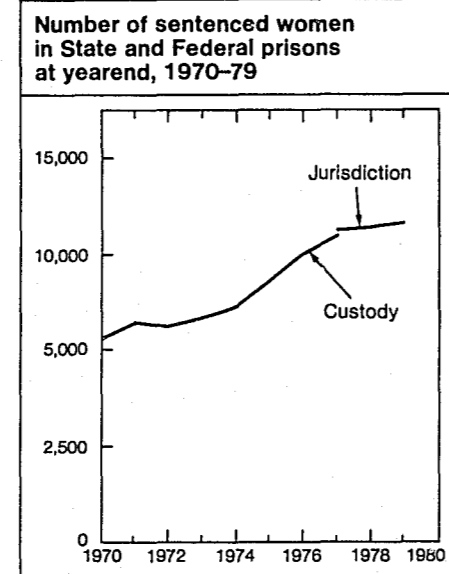

Figure 9

jurisdictions. The number of sentenced women, on the other hand, grew 3 percent, slightly higher than the 2-percent rise for sentenced men. In State institutions, the number of women was up by 4 percent, whereas Federal institutions experienced a 16-percent drop, consistent with a similar, if somewhat smaller, decline (11 percent) in the number of men in the Federal system. Proportionately, the Northeast showed the largest increase in female prisoners—8 percent—approximately double that for each of the other regions.

**Black overrepresentation highest in Northeast**

Data on race, available for the second year, revealed proportions similar to those reported for 1978: Whites comprised just under 52 percent of all prisoners; blacks, 46 percent; and American Indians, Alaskan Natives, Asians, and Pacific Islanders, 1 percent. Data on race were not available for 1 percent of the prison population.

The proportion of blacks in the prison population was highest in the South, which also contains the largest percentage of blacks in its general population. However, the proportion of blacks among prisoners in Southern States was only three times the proportion of blacks in the general population, whereas the corresponding proportion was five times as great in each of the other three regions. In other words, the overrepresentation of blacks in prison was higher in the Northeast, the North Central region, and the West than in the South.

**Trends among sentenced women in State and Federal institutions, 1970-79**

Custody population			
Year	Number	Percent change	Percent of total prison population
1970	5,635	-14.5	2.9
1971	6,329	12.3	3.2
1972	6,269	-0.9	3.2
1973	6,684	6.6	3.3
1974	7,389	10.5	3.4
1975	8,675	17.4	3.6
1976	10,039	15.7	3.8
1977	11,040	10.0	4.0

Jurisdiction population			
Year	Number	Percent change	Percent of total prison population
1977	11,212	*	3.9
1978	11,583	3.3	4.1
1979	11,936	3.0	4.0

\*Not definable.

Figure 10

Black prisoners were particularly concentrated in those Southern jurisdictions with high percentages of blacks in their general populations: the District of Columbia (97), Louisiana (71), and Mississippi (64), where the proportions of blacks in the general population were 71, 29, and 36 percent, respectively. In addition to these, three other States had black prisoner populations constituting at least three-fifths of all prisoners: Maryland (77 percent), New Jersey (62), and Delaware (60), where blacks comprised 21, 11, and 13 percent, respectively, of the total State population. The proportion of blacks was higher among female than male prisoners in both Federal and State jurisdictions and in each of the four major regions (Figure 11).

**Most jurisdictions report Hispanic data**

Almost 7 in every 10 prison inmates could be classified as to Hispanic or non-Hispanic origin.<sup>4</sup> In all, 35 of the

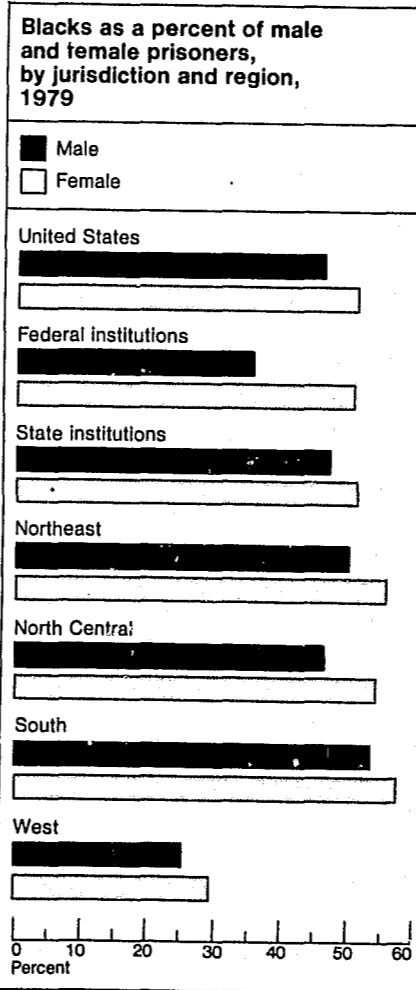

Figure 11

52 jurisdictions reported Hispanic/non-Hispanic data, including six that provided estimates. Another four States were able to report only partial data. Three States with sizable Hispanic populations did not furnish the relevant data: Florida, Ohio, and Virginia.

As was true among reporting States in 1978, New Mexico had the largest contingent of Hispanics (55 percent of all of its inmates), followed by Colorado (28) and Arizona (26). An additional seven States reported that at least a tenth of their prison populations were Hispanic: California (24 percent), New York (19), Texas (18), Connecticut (14), Utah (14), Wyoming (12), and Idaho (10). The Federal system reported that 14 percent of its prisoners were Hispanic.

**Incarceration rate highest for black males**

The rate of incarceration among black males was, for the Nation as a whole, approximately four times that recorded for white males, a differential that existed, to a greater or lesser degree, in every State.<sup>5</sup> The rate for males of other minority races, mainly American Natives and Asians, was much closer to that for whites than for blacks; however, it was disproportionately high in States where American Natives resided in relatively large numbers—Alaska, Minnesota, Montana, North Carolina, Oklahoma, Oregon, South Dakota, and Washington. In each racial group, females had a far lower rate of incarceration than males, but the rate for black women was more than eight times that for white women at the national level, again a disparity that prevailed to a varying degree in each State.

Although data on the rate of incarceration for persons of Hispanic origin were less reliable than those for each race and sex, the figures for States for which rates could be calculated suggest that Hispanics are more likely than whites, but less apt than blacks, to be incarcerated. As was true from the perspective of race, the rate for Hispanic women was far lower than that for men.

<sup>5</sup>Rates of incarceration by race, sex, and Hispanic origin presented in this report are tentative, as they are based on 1979 general population estimates that were developed using experimental methods. More precise rates will be available after processing of 1980 Census data. The total inmate population (both those with sentences of more than 1 year and those with sentences of 1 year or less or no sentence) was used in calculating the rates. See Appendix II for detailed rates and further discussion.

**Admissions and releases**

The volume of both admissions to and releases from U.S. correctional institutions increased between 1978 and 1979 (Figure 12). In all, 35 States increased the number of sentenced prisoners admitted to their institutions during the year. For State institutions, the overall increase amounted to 7.2 percent, although a number of States greatly exceeded the average. California, Connecticut, and West Virginia reported increases of a fourth or more.<sup>6</sup> As noted earlier, the large increase in California (28 percent) reflected its new determinate sentencing law and, in general, a stricter attitude toward crime. In contrast, 15 States, the District of Columbia, and the Federal system reported fewer admissions during 1979 than the previous year. Admissions were down by 3 percent in the Federal system, consistent with the continued decline in the number of cases filed in Federal courts. With respect to releases, their total number was up 8 percent over 1978. Both Federal and State institutions increased the number of prisoners released during 1979.

**Admission/release ratio down again**

The ratio of admissions to releases for sentenced prisoners was down very slightly from 1978—10.4 admissions for every 10 releases, compared with 10.5 a year earlier. The Federal system had an admission-release ratio of 8.1 to 10, and 10 States also registered fewer admissions than releases: Alabama, Florida, Kansas, Maryland, Missouri, Nebraska, New Mexico, North Dakota,

<sup>6</sup>See footnote number 1 concerning the apparent large increase in admissions for Mississippi.

**Change in admissions and releases from Federal and State institutions, 1978-79**

	1978	1979	Percent change
<b>Admissions</b>

Figure 12

South Carolina, and Vermont. All of these States, as a result, sustained declines in their sentenced prisoner population, and all except South Carolina experienced a decrease in total prisoner population.

#### Reporting practices vary for escapes and AWOLs

Escapes and AWOLs, together with returns from those illicit absences, accounted for 5 percent of both departures and admissions, whether in the Federal system or State institutions. Because administrative procedures vary widely, however, escape and AWOL data represent gages of unknown validity with respect to the frequency of security breaches among State systems. In some States, almost any unaccounted absence warrants one or the other designation. In others, each escape or AWOL is predicated on the lapse of specific time periods. The following jurisdictions reported departing or returning escapees and AWOLs as making up at least a tenth of both their admissions and releases: Arizona, the District of Columbia, Maryland, Massachusetts, Michigan, Tennessee, Utah, Vermont, and Washington. In addition, Hawaii, Iowa, and North Carolina indicated that at least 10 percent of all departures were either escapes or AWOLs, but

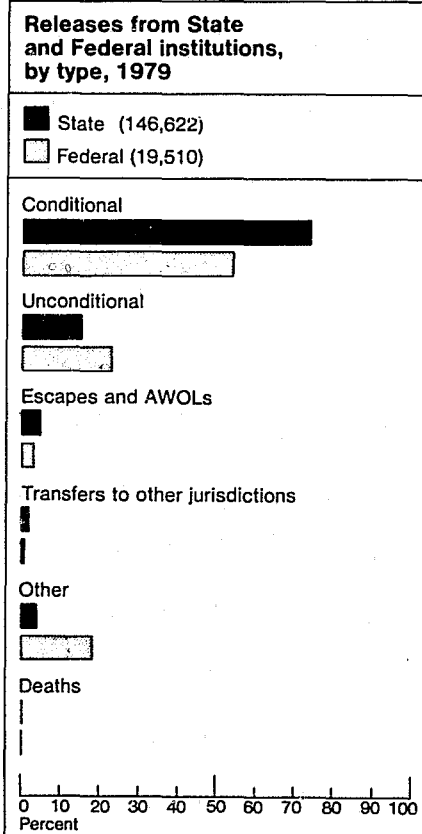

Figure 13

that fewer than a tenth of admissions involved returns of escaped or AWOL inmates.

#### Rise in returned violators

Although persons newly committed by the courts still constituted the vast majority of admissions, this group's share of admissions was down slightly in both State and Federal institutions as compared with 1978. Overall, some 3 out of every 4 persons admitted to U.S. prisons during 1979 were new court commitments, i.e., persons incarcerated the first time for a given conviction. The remainder included violators of conditional release (e.g., parole)—15 percent; returned escapees and AWOLs—5 percent; and returns from appeal or bond, transfers from other jurisdictions, and other admissions—5 percent.

Returned violators of conditional release comprised a higher proportion of State than of Federal admissions—15 versus 9 percent. They accounted for at least 1 in every 4 admissions in the following States: New Jersey (32 percent), Illinois (31), Minnesota (30), Washington (27), and Arkansas (25). In contrast, the proportion was 5 percent or less in Alabama, Arizona, Delaware, Louisiana, Oklahoma, and Wyoming.

States in which there was a marked increase in the number of returned violators during 1979 were Connecticut (from 354 to 602), Indiana (118 to 203), North Carolina (682 to 997), Oregon (355 to 561), and South Carolina (29 to 347). As in the past, such shifts were largely brought about by changes in the release practices that were in effect during immediately preceding years. Thus, increases in the return of violators were attributable to larger numbers of persons released on parole or probation during those years, stricter conditions placed on persons released conditionally, or more rigid enforcement of conditional release requirements. Decreases generally occur where fewer persons were released conditionally, where overcrowding blocked the return of all but the most serious of violators, or where budgeting or personnel problems limited the extent to which parole officers could scrutinize persons under their charge.

#### Federal/State release practices differ

Differing practices and trends in the manner of granting release from Federal and State institutions were evident from the 1979 data (Figure 13). Conditional releases predominated in State institutions, accounting for almost

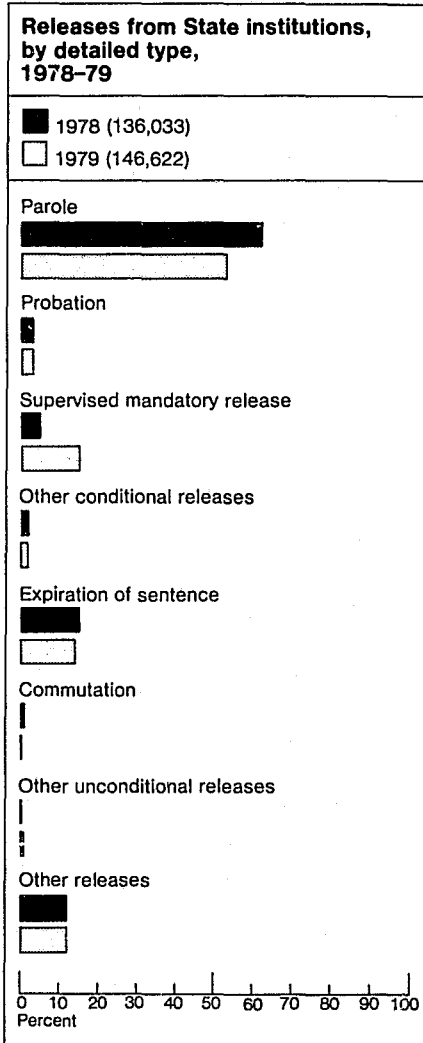

Figure 14

3 out of every 4 persons discharged, much the same as in earlier years. However, the type of conditional release shifted sharply away from parole in the direction of supervised mandatory release, i.e., required by statute at some point prior to expiration of sentence but subject to supervision while sentence is in force (Figure 14). In all, 53 percent of all persons who departed from State institutions during 1979 were released on parole, compared with 62 percent a year earlier. The proportion of supervised mandatory releases, on the other hand, increased from 5 to 15 percent. Two-thirds of the increase was attributable to the adoption of this release method by California.<sup>7</sup>

<sup>7</sup>Beginning in 1979, all California prisoners released to community supervision were on supervised mandatory release rather than parole, because, under the determinate sentencing law, their release date is set at time of sentencing rather than at the discretion of the Community Release Board.

In the Federal system, conditional releases accounted for 54 percent of all releases, about the same as in 1978 but considerably higher than the 33 percent recorded in 1977. Paroles constituted about 1 in 3 Federal departures and supervised mandatory release, 1 in 5. Among other forms of departure, unconditional releases accounted for one-fourth of the total; releases after transfer to another authority, one-fifth; and escapes and AWOLs, 3 percent.

#### Release type varies by State

For the vast majority of States, departures were either conditional or unconditional releases, with all other forms of departure rarely constituting more than a tenth of all persons leaving prison. Two jurisdictions with combined jail/prison systems reported substantial percentages of transfers from their correctional systems to other jurisdictions: Alaska (26) and the District of Columbia (19). California reported 21 percent of its departures as persons released on appeal or bond and court movements not occurring on the same day.

#### Parole use down

In all, 41 of 52 jurisdictions reported that parole use was either declining or about the same as last year. For State institutions as a whole, the decline from 62 percent to 53 percent was attributable in large part to changes in California's method of granting release. By deleting California figures from both 1978 and 1979 release data, parole use nationwide dropped only 1 percentage point, from 60 to 59 percent. Among the 19 States that had a use of parole of less than 50 percent, 5 reported a decline of at least 10 percentage points: California, Connecticut, Hawaii, Illinois, and Iowa. Two States with comparatively high parole rates, Minnesota and West Virginia, also diminished their use of this form of release by at least 10 percentage points during 1979. In contrast, two jurisdictions in which the use of parole has generally been relatively low, Delaware and the District of Columbia, reported substantial increases in the number of paroles granted. In four States—New Hampshire, New Jersey, Pennsylvania, and Washington—paroles accounted for more than 80 percent of all releases.

#### Shift toward mandatory release

In States where parole use was declining, there was generally a shift toward the use of supervised mandatory release. Persons discharged under this arrangement represented 15 percent of

all releases from State institutions, compared with 5 percent a year earlier. Five States reported that at least 1 in every 5 discharged persons was under supervised mandatory release: California (70 percent), Illinois (48), Wisconsin (43), Alaska (40), and New York (27). Both California and Virginia reported using this form of release for the first time in 1979. In Texas, 1,117 prisoners were discharged in this manner during 1979, up from 139 in 1978, when it was used for the first time under a program for the early release of first and nonviolent offenders to ease overcrowding.

Although half the States utilized probation during 1979, only four reported releasing at least 20 percent of their prisoners on that basis: Hawaii (27), Idaho (37), Kansas (24), and Vermont (26). In Hawaii and Vermont, both of which have integrated jail/prison systems, the high rate of probation largely reflected the movement of jail inmates placed on probation without ever being sentenced to confinement. All four of the States, moreover, use one or more forms of "shock probation," a sentence stipulating a relatively brief period of confinement followed by release to probation. Of two major types of shock probation—split sentence and sentence modification—the former was used in Idaho and Vermont and the latter in Hawaii, Idaho, and Kansas. In split sentencing, the court sets an initial term of confinement as a condition for probation, whereas sentence modification involves court reevaluation of a sentence after a statutorily fixed period of confinement, generally 30 to 180 days, and resentencing to probation if deemed appropriate by the court.<sup>8</sup>

#### Little change in unconditional release

At least half of all prisoners released in Louisiana, Maine, Missouri, and Oklahoma during 1979 were discharged upon expiration of their sentence, the most frequently used form of unconditional release nationwide. In three of these States, the leading type of conditional release, parole, has traditionally been used very little, and it was abolished in the fourth State (Maine) for persons sentenced after 1976. Commu-

<sup>8</sup>Delaware, the District of Columbia, North Carolina, and Rhode Island showed lower usage of probation than actually occurred because they excluded from their NPS counts those persons who received, as part of a sentence split between prison and probation, a confinement period of less than 1 year.

tation, another kind of unconditional release, constituted more than 1 percent of all discharges in only two States, Maryland and Minnesota.

#### Prisoner deaths number 681

In all, 681 inmates (667 men and 14 women) died in the Nation's prisons during 1979. Of the 502 deaths that were classified, 4 in every 5 were attributed to illness or natural cause. The other fatalities included 84 suicides, 84 deaths caused by another person, 20 accidentally self-inflicted deaths, and 2 executions (one each in Florida and Nevada).

At the State level, there was a moderate increase in the death rate, from 209 to 214 deaths per 10,000 prisoners. As in 1978, the highest death rate was recorded in the North Central region, 255 per 10,000 prisoners. In that region and in the South, the rate was higher than a year earlier, whereas it was lower in the Northeast and West. In Federal institutions the number of deaths rose from 53 to 66, equivalent to 178 and 250 deaths per 10,000 inmates (Figure 15).

NOTE: See Appendix II, Questionnaire, for category definitions and Appendix IV, Explanatory notes, for State-by-State variations from definitions.

<sup>1</sup>Prisoners in local jails are not considered by the State to be under its jurisdiction. For the purposes of this table, however, they are included in the total State prisoner count used to calculate the percentage of State prisoners held in local jails. The figure for Virginia includes inmates housed in jails for reasons other than overcrowding.

NOTE: See Appendix II, Questionnaire, for category definitions and Appendix IV, Explanatory notes, for State-by-State variations from definitions. In addition to the 13 jurisdictions which could not provide data on Hispanic origin, 6 reported estimated figures (Colorado, Illinois, Indiana, Massachusetts, New Hampshire, and Texas), and 4 reported Hispanic origin for only a portion of the prison population (Michigan--Mexicans only, New York--Puerto Ricans only, Wisconsin--whites only, and the Federal system--sentenced inmates only).  
 NA Data not available.

## Appendix II

### Incarceration rates

The following two special tables show, for the Nation as a whole and for individual jurisdictions, the number of persons in prison at the end of 1979 for each 100,000 residents, according to race (the first table) and Hispanic origin (the second table), both subdivided by sex. Although based on the most accurate data available for both inmates and the general population, the incarceration rates should be interpreted as an order of magnitude, rather than an exact measure, of the situation in a given jurisdiction.

Population figures used as denominators in calculating the incarceration rates were provided by the Population Division of the Bureau of the Census as developmental estimates untested against 1980 Census counts. The estimates, moreover, were extended from a 1977 point of reference to 1979 by mathematical extrapolation. Because of the experimental nature of these estimates, rates were not calculated for any category with a population base of less than 25,000.

The prison population figures used as numerators in calculating race/sex incarceration rates were derived from Table 6, 7, or 8 of Appendix I and, with few exceptions (see Explanatory Notes, Appendix IV), consist of the two major groups of inmates—those sentenced to terms of more than 1 year and those with sentences of 1 year or less or no sentence. An arbitrary limit of 10 inmates was established as the minimum necessary to derive an incarceration rate.

The population estimates used as denominators in calculating incarceration rates for the Hispanic population were derived from the 1976 Survey of Income and Education, reported in *Demographic, Social, and Economic Profile of States: Spring 1976*, CPR Series P-20, No. 334, January 1979. Most correctional systems do not keep records on the ethnic origin of inmates. Thus, figures for Hispanic prisoners, taken from Table 9, Appendix I, are in many cases based on a count of Spanish surnames or are estimated by applying a certain percentage to the total prisoner count. It should also be noted that data for both Hispanic inmates and Hispanics in the general population did not enable a breakdown by race, i.e., white, black, or other.

Special table (Yearend 1979)  
**Number of prisoners under State and Federal jurisdiction  
per 100,000 resident population, by race and sex**

NA Data not provided for U.S. or regional totals because not all States reported inmate data.  
\* Signifies resident population base of less than 25,000, fewer than 10 inmates, or inmate data not available.

### Appendix III

## Data collection method and questionnaire

Data presented in this report are based on yearend 1978 and 1979 inmate counts and on enumerations of prisoner transactions during 1979. Historical data are taken from earlier studies in the series. Data on race were provided by all jurisdictions and mortality figures by the vast majority (46 of 52). As in 1978, data on Hispanic origin were submitted by about two-thirds of the respondents, yielding useful, if incomplete, findings. Data differentiating AWOLs from escapees, and parole violators with new sentences from those without new sentences, were slightly improved over last year, but still insufficient to develop analytical findings.

As in past years, data on prisoners were collected with a standard questionnaire transmitted to the appropriate State authorities and the Federal Bureau of Prisons. A facsimile of the questionnaire (NPS-1, Summary of Sentenced Population Movement—1979) follows in this Appendix. The final date for the receipt of information was March 1980.

In each jurisdiction, the questionnaire was completed by a central agency reporting for institutions within the correctional system. This procedure also was used by the Bureau of Prisons in supplying data on Federal institutions. Because the information was derived from a complete enumeration rather than a survey, the statistical data are not affected by sampling error.

Response errors were held to a minimum by means of a systematic telephone followup and, where necessary, other control procedures. Thus, the yearend counts generally are considered reliable. Because of the absence of standardized administrative and recordkeeping practices from State to State, detailed in Appendix IV the data for admissions and departures are not always entirely comparable across jurisdictions. Standard NPS definitions are included in the questionnaire, and differences from these definitions observed in individual State responses are noted in Appendix IV.

FORM <b>NPS-1</b> (10-19-79)  U.S. DEPARTMENT OF COMMERCE BUREAU OF THE CENSUS ACTING AS COLLECTING AGENT FOR THE LAW ENFORCEMENT ASSISTANCE ADMIN. U.S. DEPARTMENT OF JUSTICE  <b>SUMMARY OF                  SENTENCED POPULATION MOVEMENT                  NATIONAL PRISONER STATISTICS                  1979</b>	<b>NOTICE</b> - These data are being collected in accordance with the 1973 Crime Control Act.          (Please correct any error in name and address including ZIP code)
RETURN COMPLETED FORM TO	<b>BUREAU OF THE CENSUS</b> Attn: Demographic Surveys Div. Washington, D.C. 20233

**FROM THE DIRECTOR  
BUREAU OF THE CENSUS**

The Bureau of the Census has been requested by the Law Enforcement Assistance Administration (LEAA) to collect data annually on inmates of State prisons. The program, title 42, United States Code, section 3763, is designed to collect summary data on movements into and out of each system's jurisdiction by adults or youthful offenders whose maximum sentences are greater than 1 year.

The report period covers January 1, 1979, through December 31, 1979. Please complete and return the report by March 14, 1980, to expedite timely publication of the data.

Historically, a major drawback of all national correctional studies has been their inability to provide researchers with comparable data for States due to differing definitions and reporting procedures. Your efforts in using our definitions when completing this form will greatly help in overcoming this deficiency. Where this is not possible, please let us know the specific differences so that we can inform data users.

The figures posted in "1978" columns were transcribed from the NPS-1 report submitted last year.

Should you have any questions regarding the completion of this voluntary report, please call collect for assistance on (301) 763-5082.

Sincerely,

VINCENT P. BARABBA

## INSTRUCTIONS

### COVERAGE

In this report, you are asked to report populations and movements of all inmates sentenced to a maximum of at least one year and one day and admitted to or released from the jurisdiction of the State prison system, even though they may be housed in another State or in a Federal institution or in a county facility. For example, you should report the admission or release of prisoners sentenced for offenses in your State but who were housed in another State for safekeeping or the admission or release of women sentenced for offenses in your State but housed in another State because your State does not operate a female facility. You should not report the admission or release of inmates your State was merely housing for other States.

**SPECIAL NOTE** — Include the populations, admissions, and releases of State inmates held in local jails as a direct result of overcrowding in State facilities only if your State considers these inmates under State jurisdiction while they serve in local jails.

### ADMISSIONS

- a. **New court commitments** — Include all inmates who were admitted with all new sentences, that is, these inmates were not readmitted for any sentences. This category includes probation violators entering prison for the first time on the probated offenses. Do not include parole violators with new sentences as new court commitments.
- b. **Parole violators with new sentences** — Include all parolees returned with new sentences.
- c. **Other conditional release violators with new sentences** — Include all conditional releases (other than parole) returned with new sentences, for example, returns from shock probations, from supervised mandatory release, etc.
- d. **Parole violators only, no new sentences** — Include all parolees returned only for formal revocations of parole which were not accompanied by new sentences. If the parole was not formally revoked, that is, the parolee was held only temporarily pending a hearing, no admission occurred for NPS purposes.
- e. **Other conditional release violators only, no new sentences** — As for 2d, substituting conditional release violator for parole violator.
- f. **Transfers from other jurisdictions** — Include all inmates transferred to this State's jurisdiction to continue sentences already in force. Do not report the admission if your State does not acquire jurisdiction. Do not report movements from prison to prison within your State.

### ADMISSIONS — Continued

- g. **AWOL returns, with or without sentences** — Include all returns from AWOL, that is, failures to return from authorized temporary absences such as work furlough, study release, mercy furlough, or other authorized temporary absence.
- h. **Escapee returns, with or without new sentences** — Include all returns from escape, that is, unlawful departures from a State correctional facility or from the custody of State correctional personnel.
- i. **Returns from appeal/bond** — Include all inmates reinstated to correctional jurisdiction from long-term jurisdictional absences on appeal or bond. Do not report returns from short-term movements (that is, less than 30 days) to court (that is, where the State retains jurisdiction).
- j. **Other admissions** — Include all other admissions not covered by the above categories. Please specify the nature of these admissions in the "Notes" section on page 4.

### RELEASES

**Unconditional** — An unconditional release occurs only if the released inmate cannot be reimprisoned for any sentence for which he was in prison.

- a. **Expirations of sentence** — Include all inmates whose maximum court sentences minus credits have been served.
- b. **Commutations** — Include all inmates whose maximum sentences have been changed (lowered) to time served to allow immediate unconditional release.
- c. **Other unconditional releases** — Include all other unconditional releases not covered by the above categories. Please specify the nature of these releases in the "Notes" section on page 4.

**Conditional** — A conditional release occurs if the released inmate, upon violating the conditions of his release, can be imprisoned again for any of the sentences for which he was in prison.

- d. **Probations** — Include all inmates who have been placed under probation supervision and conditionally released. Include all shock probation releases.
- e. **Supervised mandatory releases** — Include all inmates who must, by law, be conditionally released. This type of release may also be called mandatory conditional release.
- f. **Paroles** — Include all inmates conditionally released to parole. Enter only releases officially entitled "parole."
- g. **Other conditional releases** — Include all conditional releases not covered by the above categories. Please specify the nature of these releases in the "Notes" section on page 4.

## INSTRUCTIONS — Continued

### RELEASES — Continued

#### Death

- h. **Executions** — Self-explanatory
- i. **Illnesses/natural causes** — Self-explanatory
- j. **Suicides** — Self-explanatory
- k. **Accidental injury to self** — Include all inmates who accidentally caused their own deaths (for example, a fall from a ladder, mishandling electrical equipment).
- l. **Death caused by another person** — Include all inmates whose deaths were caused accidentally or intentionally by another inmate or prison personnel.
- m. **Other deaths** — Include all other deaths not covered by the above categories. Please specify the nature of these deaths in the "Notes" section on page 4.

#### Other Releases

- n. **AWOLS** — Include all failures to return from an authorized temporary absence such as work furlough, study release, mercy furlough, or other authorized temporary absence.
- o. **Escapes from confinement** — Include all unlawful departures from a State correctional facility or from the custody of State correctional personnel.
- p. **Transfers to other jurisdictions** — Include all inmates who were transferred from this State's jurisdiction to another to continue sentences already in force. Do not report the release if your State does not relinquish jurisdiction. Do not report movements from prison to prison within your State.
- q. **Releases to appeal/bond** — Include all inmates released from correctional jurisdiction to long-term jurisdictional absences on appeal or bond. Do not report short-term movements (that is, less than 30 days) to court (that is, where the State correctional system retains jurisdiction).
- r. **Other releases** — Include all other releases not covered by the above categories. Please specify the nature of these releases in the "Notes" section on page 4.

### JURISDICTION POPULATION DECEMBER 31

Include all inmates under State jurisdiction on December 31, regardless of location. Do not include other jurisdictions' inmates (for example, inmates from other States, pre-trial detainees) merely housed in your prisons. These inmates, however, are enumerated below in item 6, "Custody Population."

### CUSTODY POPULATION DECEMBER 31

Include all inmates in the State's custody, that is, housed in State correctional facilities on December 31. Do not include State inmates housed outside State prison facilities (these are reported under "Jurisdiction Population," item 5, above). Include other jurisdictions' inmates (for example, inmates from other States, the courts, local jails) housed in your State's facilities.

### OVERCROWDING DECEMBER 31

Include all inmates housed in local jails on December 31, as a direct result of State prison overcrowding. Do not include inmates held in local jails for other reasons, (for example, work release, court appearance, etc.). Indicate whether or not these inmates are included in the 5d, "Total Inmate Population — Jurisdiction Population December 31," total.

### RACE

- (1) **White** — A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.
- (2) **Black** — A person having origins in any of the black racial groups of Africa.
- (3) **American Indian or Alaskan Native** — A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.
- (4) **Asian or Pacific Islander** — A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
- (5) **Other** — Any other race not covered by the above categories. Please specify the races on the form below.
- (6) **Not known** — Any inmate whose race is unknown should be included here.

### ETHNIC ORIGIN

- a. **Hispanic** — A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.
- b. **Not hispanic** — A person not covered by the above category.
- c. **Not known** — Any one whose ethnic origin is unknown should be included here.

## Appendix IV

### Explanatory notes

The notes that follow identify deviations from the category definitions used in the 1979 questionnaire, provide details on the content of "other" admission and release categories, and specify any revisions to data that should be taken into account when comparing 1978 and 1979 figures. Standard NPS definitions of the various categories of admissions and releases are included in the questionnaire, a facsimile of which is provided in Appendix III. Generally, State inmates housed in local jails because of overcrowding are considered to be under State jurisdiction, and only exceptions to this rule are noted. States retaining jurisdiction over inmates housed in local jails are shown in Table 5 of Appendix I. Some States included an adjustment residual in their admission or release figure in order to balance the yearend 1978 count with the yearend 1979 count.

#### Alabama

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Differences between jurisdiction and custody counts for 1979 are due to persons housed in local jails.

*New court commitments:* Includes some split sentence violators and some parole violators with new sentences.

*Other admissions:* Adjustment residual.

*Other conditional releases:* Unconditional court-ordered releases.

#### Alaska

All data include both jail and prison inmates, as prisons and jails form an integrated system. Admission and release figures are estimates based on 1978 data.

*Parole violators, no new sentence:* Includes parole violators with new sentences and other conditional release violators with and without new sentences.

*Supervised mandatory releases:* Includes some (fewer than 5 percent) expirations of sentence and releases to probation of inmates serving a split sentence. The remainder are supervised releases, many of which convert to probation shortly after discharge.

*Other releases:* Adjustment residual.

#### Arizona

Jurisdiction counts exclude, but custody counts include, persons receiving split sentences, part to be served in prison and the remainder on probation. Arizona considers the incarceration period of such sentences to be jail time served in prison.

*New court commitments:* Includes other conditional release violators with and without new sentences and escapees returned after a prolonged period of absence.

*Other conditional releases:* Includes discretionary releases, work furloughs, and temporary releases.

#### Arkansas

Yearend jurisdiction counts are revised from those reported in the 1978 publication.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other conditional releases:* Releases under provisions of the Youthful Offender Act.

*Other releases:* Adjustment residual.

#### California

*Hispanic origin:* Figures for Hispanics includes Mexicans only; other Hispanics are included in the figure for non-Hispanics.

*Other admissions:* Includes returns from appeal or bond and court movements occurring on the same day.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other releases:* Includes releases to appeal or bond and court movements not occurring on the same day.

#### Colorado

*Other unconditional releases:* Unconditional court-ordered releases.

*Race:* Figures are estimates.

*Hispanic origin:* Figures are estimates.

#### Connecticut

All data include both jail and prison inmates, as prisons and jails form an integrated system. Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication.

*New court commitments:* Includes some parole violators and escapees returned with new sentences.

*Other admissions:* Adjustment residual.

*Expiration of sentence:* Includes some releases to probation. Large increase over 1978 probably due to inaccurate reporting in 1978.

*Other releases:* Adjustment residual.

#### Delaware

All data include both jail and prison inmates, as prisons and jails form an integrated system. Persons receiving a split sentence of more than 1 year, part to be served in prison and the remainder on probation, are excluded from the data unless the prison portion of the sentence exceeded 1 year, a practice resulting in an understating of movement transactions and the yearend population.

*New court commitments:* Includes probation violators.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other releases:* Releases to Drug Rehabilitation Center.

#### District of Columbia

The District of Columbia had an integrated jail and prison system. Data include unsentenced inmates and those with sentences of 1 year or less, with the exception of those housed in the D.C. Jail or Detention Center.

Persons receiving a split sentence of more than 1 year, part to be served in prison and the remainder on probation, were excluded unless the prison portion of the sentence exceeded 1 year, an omission resulting in an understating of movement transactions and the yearend population.

*Parole violators with and without new sentences and other conditional release violators with and without new sentences:* The total number of violators is accurate, but the breakdown by type is estimated from 1978 figures.

*Escapees and AWOLs returned:* May include some sentenced to 1 year or less.

*Expirations of sentence:* Includes supervised mandatory releases with fewer than 180 days remaining on their sentences. Such persons are not considered to be subject to the conditions normally attached to this type of release.

*Supervised mandatory releases:* Includes only those supervised mandatory releases with 180 days or more remaining on their sentences.

*Escapees and AWOLs:* May include some sentenced to 1 year or less.

*Other releases:* Type not specified.

*Race:* Estimates based on 1978 data.

#### Florida

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Breakdown by sex and sentence length for December 31, 1978, is estimated from June 30, 1978, figures. Total admissions are estimated from fiscal year 1978 admissions. Yearend jurisdiction and custody figures for 1979 are estimated from June 30, 1979, data. Differences between jurisdiction and custody counts are due in part to persons housed in local jails.

*Other conditional release violators returned with and without new sentences:* Estimates based on 1978 figures.

*Other conditional releases:* Conditional pardons.

*Race:* Racial breakdown estimated from June 30, 1979, figures.

#### Georgia

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication.

*Parole violators returned with new sentences:* Includes parole and other conditional release violators returned with and without new sentences.

*Other admissions:* May include some transfers from other jurisdictions.

*Other deaths:* Cause not known.

*Other releases:* Type not specified.

#### Hawaii

Data include both jail and prison inmates, as prisons and jails form an integrated system. Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication.

*Other unconditional releases:* Unconditional court-ordered releases.

*Probation:* Inmates whose sentences were reevaluated within 60 days of commitment and modified to probation.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

*Inmates with 1 year or less maximum sentence:* Includes persons convicted of felony offenses and sentenced to 5 years probation, up to 6 months of which may be spent in jail.

*Race:* Race data are not available for unsentenced inmates and those with sentences of 1 year or less; these are included in the "not known" category. "Other" includes American Indians and Alaskan Natives.

#### Idaho

*Other admissions:* Returns from agreement on detainers.

*Other unconditional releases:* Releases because of acquittal or dismissal of sentence.

*Other releases:* Releases to agreement on detainers.

*Unsentenced inmates (custody count):* Civil commitments held for psychological testing and evaluation.

#### Illinois

*Transfers from and to other jurisdictions:* Illinois cannot report transfers, but it is believed that the number is very small.

*Other admissions:* Includes returns from court.

*Other unconditional releases:* Includes unconditional court-ordered releases, status discharges, and technical discharges.

*Other conditional releases:* Includes conditional court-ordered releases.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

*Hispanic origin:* Hispanic count is believed to be an underestimate.

#### Indiana

Data on admissions, releases, race, and Hispanic origin are estimates.

*Other conditional release violators with new sentences:* Includes parole, probation as part of a split sentence, and probation violators with or without new sentences.

#### Iowa

*Other admissions:* Type not specified.

*Other releases:* Type not specified.

#### Kansas

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Differences between jurisdiction and custody counts are due to persons housed in other States or Federal facilities.

*Other conditional release violators returned with and without new sentences:* May include some probation violators.

*Inmates with over 1 year maximum sentence (jurisdiction count—females):* Unlike previous years, this category now excludes misdemeanants, who are no longer either housed in Kansas or under Kansas jurisdiction.

#### Kentucky

*Other conditional release violators returned without new sentences:* Includes some shock probation violators returned with new sentences.

*Other admissions:* Type not specified.

#### Louisiana

Differences between jurisdiction and custody counts are due to persons housed in local jails.

*Other unconditional releases:* Includes 22 unconditional pardons and 3 unconditional court-ordered releases.

*Other deaths:* Cause not known.

*Escapees and AWOLs:* Figures are estimates.

*Other releases:* Includes court reversals whose status as conditional or unconditional is not known.

#### Maine

Total admissions and releases are estimated from the sex-specific increase or decrease in yearend figures. Breakdown by type of movement is based on 1978 data. Breakdown of jurisdiction count by sentence length is based on 1978 data. Differences between jurisdiction and custody counts are due to persons housed in local jails, in hospitals, in other States, or at home on work-release.

*Other admissions:* Adjustment residual.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

*Race:* Estimates based on 1978 data.

#### Maryland

All data include inmates (approximately 6 percent of total) sentenced to a maximum of 1 year or less. Differences between jurisdiction and custody counts are due to persons housed in local jails.

*New court commitments:* Includes parole and other conditional-release violators with new sentences and returns from appeal or bond.

*Expiration of sentence:* Figures are estimates, inasmuch as expiration and supervised mandatory release are considered one category.

*Supervised mandatory releases:* Figures are estimates, inasmuch as expiration and supervised mandatory release are considered one category.

*Race:* Figures are estimates.

#### Massachusetts

Both yearend and movement jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Differences between jurisdiction and custody counts are due to persons housed in local jails.

*New court commitments:* Includes parole violators returned with new sentences.

*Other releases:* Adjustment residual.

*Race:* Figures are estimates.

*Hispanic origin:* Figures are estimates.

#### Michigan

*Other conditional releases:* Pre-parole furloughs.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

*Other races:* Includes Mexican-Americans and some persons whose race is not known.

*Hispanic origin:* Only persons of Mexican descent are included; all other Hispanic inmates are included in "not known," along with persons whose origin is not known.

#### Minnesota

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Differences between jurisdiction and custody counts are due to persons housed in other States or in Federal institutions.

*Other releases:* Adjustment residual.

#### Mississippi

Differences between jurisdiction and custody counts are due to persons housed in local jails.

*Other admissions:* Type not specified.

*Other conditional releases:* Includes work releases and supervised earned releases.

#### Missouri

*Parole violators without new sentences:* Includes parole violators with new sentences.

*Transfers from and to other jurisdictions:* A small number of transfers on interstate compacts are erroneously reported in other movement categories.

*Other admissions:* Adjustment residual.

*Other releases:* Includes 49 court-ordered releases and 45 as an adjustment residual.

*Race:* Figures are estimates.

#### Montana

Differences between jurisdiction and custody counts are due in part to two females housed in local jails.

*Other unconditional releases:* Includes nine court-ordered releases.

*Other conditional releases:* Includes one release to extended furlough and one conditional court-ordered release.

#### Nebraska

None.

#### Nevada

Differences between jurisdiction and custody counts are due to out-of-State inmates housed in Nevada and those in mental hospitals.

*Other unconditional releases:* Unconditional court-ordered releases.

#### New Hampshire

Differences between jurisdiction and custody counts are due to persons housed in other States.

*Other unconditional releases:* Unconditional court-ordered releases.

*Race:* Figures are estimates.

*Hispanic origin:* Figures are estimates.

### New Jersey

Jurisdiction figures exclude 31 males held in local jails to ease overcrowding.

*Other admissions:* Adjustment residual.

### New Mexico

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication.

*Other unconditional releases:* Unconditional court-ordered releases.

### New York

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication to include 269 persons held at Riker's Island to ease overcrowding and to include one woman incorrectly omitted in 1978. Differences between yearend jurisdiction and custody counts for 1979 are due to persons housed at Riker's Island. Movement figures incorrectly exclude these persons.

*Parole violators with and without new sentences:* Includes other conditional release violators with and without sentences.

*Transfers from and to other jurisdictions:* Includes transfers from and to the Department of Mental Hygiene.

*Other admissions:* Adjustment residual.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

*Race:* "Not known" comprises American Indians and Orientals.

*Hispanic origin:* Only Puerto Rican inmates are included; all other Hispanic inmates are included in the non-Hispanic category.

### North Carolina

Differences between jurisdiction and custody counts are due to persons held for safekeeping, presentence diagnosis, or for Federal authorities. Persons receiving partially suspended sentences of more than 1 year, part to be served in prison and the remainder on probation, were excluded from the data unless the prison portion of the sentence exceeded 1 year, an omission resulting in an understating of movement transactions and the yearend population. Releases of inmates with partially suspended sentences are counted under "expiration of sentence" rather than "probation."

*Parole violators with new sentences:* Includes parole violators without new sentences.

*Other admissions:* Adjustment residual.

*Expiration of sentence:* Includes some commutations (fewer than 10 percent).

*Other unconditional releases:* Unconditional court-ordered releases.

### North Dakota

Differences between jurisdiction and custody counts are due to Federal prisoners held in North Dakota institutions.

*Other conditional releases:* Conditional court-ordered releases.

### Ohio

*New court commitments:* Includes some "other conditional release violators with new sentences."

*Transfers from other jurisdictions:* Transfers from mental hospitals.

*Other unconditional releases:* Sentences vacated by court.

*Other conditional releases:* Extended medical furloughs and pre-parole furloughs.

*Deaths:* Deaths classified as due to "illness or natural cause" include a small number of deaths attributable to unknown causes.

### Oklahoma

Total female admissions and releases believed to be accurate, but breakdown by type is estimated from 1978 data. It is estimated that some 99 percent of all inmates are sentenced to over 1 year; therefore all prisoners are allocated to this category.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

### Oregon

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication.

*New court commitments:* Figures are estimates.

*Other deaths:* Cause not known.

*Other releases:* Adjustment residual.

### Pennsylvania

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication. Differences between jurisdiction and custody counts are due to persons housed for Federal, county, or other State authorities.

*Other admissions:* Adjustment residual.

*Other unconditional releases:* Unconditional discharges after release on authorized temporary absence. Such releases were excluded from this category prior to 1979.

### Rhode Island

All data include both jail and prison inmates, as prisons and jails form an integrated system. Persons receiving a partially suspended sentence of more than 1 year, part to be served in prison and the remainder on probation, were excluded from the data, unless the prison portion of the sentence exceeded 1 year, an omission resulting in an understating of movements transactions and the yearend population.

### South Carolina

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication and are estimates. Differences between jurisdiction and custody counts are due in part to persons housed in local jails to ease overcrowding.

*New court commitments:* Includes a number of parole violators returned with new sentences.

*Parole violators with new sentences:* May include some parole violators without new sentences.

*Other conditional release violators with new sentences:* May include some "other conditional release violators without new sentences."

*Other admissions:* Adjustment residual.

*Other unconditional releases:* Includes unconditional court-ordered releases.

*Other releases:* Adjustment residual.

### South Dakota

*Other unconditional releases:* Unconditional court-ordered releases.

### Tennessee

All counts include persons sentenced to exactly 1 year, resulting in an overstatement of yearend and movement populations. Differences between jurisdiction and movement counts are due in part to persons housed in local jails.

*Parole violators without new sentences:* Includes parole violators with new sentences.

*Other conditional release violators without new sentences:* Includes returns from extended furloughs, a program discontinued early in 1979.

*Transfers from and to other jurisdictions:* Includes transfers from and to Federal authorities and persons on interstate compacts.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other conditional releases:* Includes releases to extended furlough, a program discontinued early in 1979.

### Texas

All data are custody figures, as jurisdiction counts were not provided.

*Parole and other conditional release violators with new sentences:* Includes parole and other conditional release violators without new sentences.

*Other admissions:* Includes four Mexican nationals received under treaty.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other conditional releases:* Conditional pardons.

*Other deaths:* Cause not known.

*Other releases:* Includes 46 male and 1 female Mexican national returned under treaty and an adjustment residual.

*Hispanic origin:* Figure is estimated at 18 percent of inmate population.

### Utah

*Other unconditional releases:* Terminations of sentence by Board of Pardons.

### Vermont

Data include both jail inmates (except those held in local lockups) and prison inmates, as prisons and jails form an integrated system.

Yearend jurisdiction counts for 1978 are revised from those reported in the 1978 publication to exclude 23 persons with weekend sentences held in local lockups. Differences between jurisdiction and custody counts are due to persons housed out of State and in Federal facilities.

### Virginia

Both custody and jurisdiction figures exclude 771 male and 40 female inmates held in county jails both to ease overcrowding and for other reasons. All of these inmates had at least 6 months remaining on their sentence and an unknown number had sentences over 1 year. Differences between jurisdiction and custody counts are due to persons housed in other States.

*Parole violators with new sentences:* Includes parole violators without new sentences.

*Other unconditional releases:* Absolute pardons.

*Other conditional releases:* Conditional pardons.

*Other deaths:* Cause not known.

*Other releases:* Type not specified.

### Washington

All jurisdiction counts exclude 135 males housed in local jails to ease overcrowding. Washington began housing such inmates in jails in September 1979.

*Other conditional releases:* Includes three paroles to reinstatement and three unspecified conditional releases.

### West Virginia

Yearend jurisdiction count for 1978 is revised from that reported in the 1978 publication to include 52 males from one institution erroneously excluded from the count.

*New court commitments:* May include some persons returned from court after being declared unsuited to serve at a particular minimum security institution.

*Other admissions:* Readmission following a West Virginia Supreme Court voiding of a court-ordered release.

*Other unconditional releases:* Unconditional court-ordered releases.

*Other conditional releases:* Includes four conditional court-ordered releases and one suspension of sentence.

*Other releases:* Includes persons returned to court jurisdiction after being declared unsuited to serve at a particular minimum security institution.

### Wisconsin

Yearend jurisdiction counts are revised from those reported in the 1978 publication.

*New court commitments:* Includes transfers from other States.

*Other unconditional releases:* Includes some transfers to mental hospitals, a category that Wisconsin considers to be unconditional court-ordered releases.

*Hispanic origin:* Figure for "non-Hispanic" includes 1,346 blacks for whom Hispanic origin data were not available.

### Wyoming

None.

### Federal Bureau of Prisons

Persons receiving a split sentence of more than 1 year, part to be served in prison and the remainder on probation, are excluded from 1978 and 1979 counts for those with maximum sentences of over 1 year unless the prison portion of the sentence exceeded 1 year, a practice resulting in an understating of these counts. Such persons (totaling 365 on December 31, 1979) are included in the count of inmates with maximum sentences of 1 year or less.

*New court commitments:* Includes "other conditional release violators with new sentences."

*Parole violators with new sentences:* Figures are estimates based on new court commitments.

*Other unconditional releases:* Includes 186 unconditional court-ordered releases and 3 unconditional pardons.

*Other deaths:* Includes six deaths caused by a power plant explosion.

*Other releases:* Consists for the most part of persons granted a release after having been transferred on a temporary basis from a correctional institution to another authority.

*Race:* Data available only for sentenced inmates.

*Hispanic origin:* Data available only for sentenced inmates.
