

State of Arkansas Annual Crime Summary 1992

MAR 25 1993

Index crime in Arkansas decreased 7% in 1992 compared to 1991. This is the first yearly decrease since 1984. Violent crime (murder, rape, robbery and aggravated assault) decreased 2% and property crime (burglary, theft, motor vehicle theft and arson) decreased 8%. With the exception of aggravated assault, which remained about the same, all index crimes decreased from 1991 figures. The largest decline was burglary (-10%), with rape (-6%), robbery (-7%) and theft (-7%) also showing significant reductions.

Even with these decreases in 1992, overall index crime was still 45% higher than in 1984, with violent crime 84% higher and property crime 41% higher.

The total number of arrests statewide for all offenses (except traffic violations) increased 3% from 1991. Arrests of juveniles (under 18 years of age) for index offenses increased 2%, while arrests of adults for index offenses decreased 4%. Drug arrests showed a 14% increase, with arrests for sale or manufacturing of drugs increasing 7% and for possession, up 19%. Arrests for driving under the influence decreased slightly (-2%), which is the first decrease since 1988.

Statewide, 386 law enforcement officers were assaulted while on duty. This is a slight decrease from the 400 assaulted in 1991. Approximately one-third of the assaults resulted in personal injury to the officer: two with a firearm, three with a knife, 20 with other dangerous weapons and 115 with personal body weapons (hands, fists, etc.). In 141 cases, officers were responding to a disturbance call and in 88 cases they were attempting other arrests.

The total value of property stolen in all index offenses was \$94 million (down 3% from 1991). There has not been another yearly decrease in stolen property value since ACIC began crime data collection in 1976. With the exception of motor vehicle theft, the value of stolen property decreased for all index offenses.
